📍 Karachi, Pakistan

SUMMARY

Motivated and detail-oriented AWS Cloud Engineer with hands-on experience in designing, deploying and managing cloud infrastructure on Amazon Web Services. Recently completed AWS 3 in 1 certification program at Sherdil IT Academy with 94.6% score on final exam. Demonstrated ability to architect and deploy complete High Availability web applications on AWS. BSE graduate from UBIT University of Karachi seeking Junior Cloud Engineer role to contribute and grow in a dynamic tech environment.

PROJECTS

High Availability Web Application

- Deployed complete production grade high availability web application on AWS including:
- VPC with 2 public and 3 private subnets across 2 AZs
- Windows EC2 instances with IIS web server
- Application Load Balancer — internet facing
- Auto Scaling Group — 2 healthy instances
- RDS MySQL database in private subnet
- Bastion Host for secure administration
- Route 53 DNS — custom domain configured
- AMI and Launch Template for automated deployment

AWS VPC & EC2 Infrastructure

- Created 2 VPCs with best practice CIDR blocks
- Deployed public and private Windows/Linux servers
- Installed and configured IIS and Apache web servers
- Implemented VPC peering between VPC1 and VPC2
- Managed EBS volumes, snapshots, and AMIs
- Connected instances via RDP and SSH/PuTTY
- Configured security groups and NACLs

AWS IAM & S3 Security

- Created IAM users and groups with custom policies.
- Implemented deny policies for CloudTrail, IAM, and S3.
- Created S3 buckets with upload and download restrictions.
- Configured S3 OneZone-IA storage class.
- Tested and verified all security restrictions.

KEY ACHIEVEMENTS

AWS 3 in 1 Course — Complete

Sherdil IT Academy — Batch 62
Jun 2026 - Sep 2026

Generative AI Course — Complete

AI Videos, Websites & Images

Diploma Software Engineering — Aptech

React.JS, HTML, CSS, JavaScript, Docker, CI/CD

SKILLS

VPC Subnets Internet Gateway

NAT Gateway EC2

Windows Instances Linux Instances

Elastic Load Balancer

Auto Scaling Groups

Launch Templates IAM Users

Groups Roles Policies S3

Buckets Storage Classes RDS

MySQL Database Management

Route 53 DNS Routing Policies

Lambda Serverless Computing

CloudWatch Monitoring Alerts

CloudTrail Audit Logging

CloudFormation

Infrastructure as Code SNS SQS

EventBridge CloudFront CDN

EBS Volumes Snapshots

AMI Management

EDUCATION

Bachelor of Software Engineering (BSE)

UBIT — University of Karachi

📅 2022 - Present

Computer Science

Government Degree College

📅 02/2020 - 08/2026

EXPERIENCE

Freelance AWS Cloud Engineer

Self Employed — Karachi, Pakistan

📅 06/2025 - Present

- Designed and deployed a high-availability web application on AWS for a client, including VPC, EC2, Load Balancer, Auto Scaling, and RDS MySQL. Live: muhammadalikhan.sherdilitacademy.net.
- Implemented complete VPC architecture with public and private subnets, Internet Gateway, NAT Gateway, and VPC peering across multiple network environments.
- Configured Windows and Linux EC2 instances, installed IIS and Apache web servers, and managed secure connectivity via RDP and SSH.
- Created and managed IAM users, groups, and custom security policies to enforce least privilege access control.
- Implemented S3 bucket policies, CloudTrail logging, and CloudWatch monitoring for complete infrastructure visibility.
- Managed EBS volumes, snapshots, and AMIs for backup and disaster recovery solutions.
- Configured Route 53 DNS routing policies and domain management for web applications.

STRENGTHS

- 1: Cloud Architecture & Infrastructure**
- 2: Automation & Scripting**
- 3: Problem-Solving & Troubleshooting**
- 4: Continuous Learning & Adaptability**
- 5: Collaboration & Communication**
